The lucky ticket in the draw for the Shrine Model Home in Calgary was X 6986, the winner being G. F. Dippie of Calgary.

The Chautauqua Ticket Committee will meet in the Masonic hall immediately after the Canadian Club meeting on Friday evening, May 20th.

A meeting of the Carbon Wheat Pool Local will be held in the Farmers' Exchange Hall, on Saturday, May 28th, at 3 p.m., for the purpose of electing officers and the selection of nominees for delegates at the Annual Meeting. All Pool Members are requested to attend.

JOHN ATKINSON,
Secretary.

Among the Carbon Chess players who are to play the Calgary Chess Club on Friday night are: Messrs. Braisher, English, Laing, R. English, Dixon, Code, McPherson, Birch, Purdy, Heath, Longstaff and Duyman.

Weather permitting, the golf tournament here on May 24 ought to be one of the exciting events of the season, players coming from Irricana, Rockyford, Drumheller and possibly Wayne. Although it has not been definitely decided, it is the intention to start the play in the morning and to divide the draw into three flights. Each game will include eighteen holes of play. Both ladies' and men's games are being arranged.

At a meeting of the sponsors of the 1927 Chautauqua, which was held in the Municipal office last Wednesday night, the following officers and ticket sellers were appointed:

President: J. A. MacDonald.
Secretary: R. Coburn.
Advertising: H. N. Elliott.

COMMITTEES:

Tent: J. Atkinson, D. Code, I. Guttmann, A. Balogh, C. Nash, F. Poxon, J. Oliphant, J. A. Toombs.
TICKETS: North, S. N. Wright
South: L. B. Hart, H. Birch, I. Guttmann.

East: F. Barker, C. Hedstrom, J. Clayton, R. Thorburn, R. Hunter.

West: J. Gordon.

Mines: J. Oliphant, R. Tennant.
Town: C. Nash, J. A. MacDonald.

Swalwell: R. B. Cox, R. Bell, J. McKelvey.

TENDERS FOR SCHOOL HOUSE

Sealed tenders will be received by the Board of Trustees of Gamble School District No. 1515 at the office of the Secretary-Treasurer up to noon, June 11, 1927, for the erection of a one roomed frame school building after Plan Number 63 C. 538. Plans and specifications may be obtained from Secretary Treasurer on payment of a deposit of \$5.00. Plans must be returned within 24 hours, and deposit will then be refunded. A marked cheque for five per cent. of the amount of tender should be enclosed with each tender as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.

L. B. HART,
Secretary Treasurer.
P. O. Carbon.
Nearest Station, Carbon 5 miles.
C.N.R. Swalwell 7 1/2 miles.

The Canadian Club supper will be held in the Masonic Hall on Friday (tomorrow) evening at 7.00 p.m. The occasion is for the formation of a Canadian Club here and at the conclusion of the supper the matter will be decided on by those present. The Canadian

Club is a non-party organization, the object of which is to unite all patriotic Canadians in common sympathy and in common action for the National welfare.

A dance has been arranged to take place at the conclusion of the meeting.

TRADE IN CARBON
There is nothing wrong with this town except that we don't keep open evenings during seeding and harvest time.

Salt, Blocks 50 lbs.	80c	1st grade Flour	\$4.50
Course Salt, 50 lbs.	80c	2nd grade Flour	\$4.20
Fine Dairy Salt, 50 lbs.	90c	4-string Brooms	35c
Pure Plum Jam	45c	Raspberries, 2 tins for	55c

POTATOES

I am shipping another car load [loose]. Bring some in; trade them for groceries. Can't pay cash as I will give you exactly what I get. I guarantee 60c a bushel; possibly I can get a little better price. Anyway it's something, and better than keeping them to sprout. See what surplus you can spare and bring them in Wednesday, Thursday and Friday, May 25, 26 and 27. Don't sack them. Don't bring poor ones. Weigh at A.P. elevator. Must be absolutely useable potatoes.

We buy hides and horse hair (top prices)
Have you any fat beef or veal?

Special on Kitchen Cabinets

IF YOU are interested in a Kitchen Cabinet I am prepared to quote you a better price than any departmental store in this county can quote.

The Cabinet Has

Large roomy shelves, all white enamelled. Table of Weights and measures and cook book holder. Large flour bin equipped with sifter. Glass Tea and Coffee Jars and five glass spice jars. Also large glass sugar container. The porcelain sliding table measures 25 in. x 40 in. Large metal bread box. Block on side for meat grinder.

RED ROSE ORANGE PEKOE is extra good.

One of Canada's Assets

Every citizen is or should be interested in all things pertaining to the development and prosperity of Canada, whether he views it from a broad patriotic and national standpoint or the more selfish one of how his individual interests and welfare are affected. Anything any citizen can do to advance national interests and progress is, therefore, to be expected of him.

It is generally recognized that it is in the interests of a country to develop its export trade to a point beyond the volume and value of its import trade. In other words, to create what is known as a favorable balance of trade. Export trade is made up of those articles produced or manufactured in Canada and sold in other countries; import trade consists of produce and goods of other countries brought into Canada and sold to its people. That is, Canada must send us money abroad to pay for imports, while on the other hand, foreign money is paid to us for goods we export. In practice, of course, exports really pay for our imports, hence the strength of developing exports is excess of imports.

There is, however, one exception to this general rule. Money itself when exported adds to the wealth of the country much the same as exports of produce and goods add to it. And it is immaterial the form in which such money may come.

Of late years a new industry has developed on the North American continent, although it is an old industry in France, Switzerland, and some other lands. We refer to tourist traffic, which has long been a source of great income to France and Switzerland. Tourist traffic has, with the advent of the automobile and the building of good roads, become one of the major industries of Canada, and, unlike most imports, the more tourists we can induce the richer Canada is made. It follows that everything in reason should be done by Canadians to encourage an increase in such traffic.

Tourists come to Canada for a variety of reasons. They are glad to get away from the excessive heat of the south in summer; with the development of so many large cities in the United States those who can afford to do so are anxious to do to the woods, to the lakes and river resorts; some come for the purpose of hunting and fishing; some with the idea of investigation of Canada's resources and possibilities and investment therein. All in their travels look for comfort, pleasure and beauty of surroundings.

The mountain scenery and winter sports of Switzerland are that country's drawing cards. Canada can offer just as fine mountain scenery as Switzerland, and an infinite variety of other natural beauty which the land of the Swiss lacks. Canada's national parks are without exception among the finest in the world.

But to get to the main point of this article. Tourists travelling on paved and country highways, en route higher and higher, desire to follow the most attractive and beautiful routes. Bare, treeless levels do not attract, but winding trails and roads through little valleys and parklike country make a powerful appeal. It is in these instances, too, that a profusion of wild flowers abound, making the whole countryside beautiful and a constant surprise and joy to the visitor.

But these wild flowers are in danger. People exclaim at the beauty of certain patches and forthwith proceed to pluck or the blooms or even tear the plants up by the roots. In a few short hours they are withered and brown away. Had they been left undisturbed they would have given pleasure to scores of passing tourists, adding to the attractiveness of the route along which they bloomed. Not only so, but they would have increased next year and by scattering seed far and wide would have greatly increased in number. The serious thing is that through destruction their beauty was lost, not for one season alone, but for all time, and the loveliness which marked a spot this year is bereft of its charm in future years.

The moral is, stop that thoughtless plucking of our prairie and forest wild flowers. Try to realize that these wild flowers mean not only beauty to our country but that they attract visitors and have an effect in adding to the material wealth and prosperity of the Canadian people.

To the troubadour of old, we are inclined for most of our knowledge of the customs and thought of Medieval Europe. His songs, 2,500 of them have been preserved. They deal with drama, romance and fable.

Teacher. "Surely you know what the word 'hairing' means. Tommy. After you've washed, what do you look at to see if your face is clean?" Tommy. "The towel!"

Diamond cutters who come to London to buy gems remain in semi-darkness until the time comes for examining the stones.

Children Cry for

MOTHER:—Fletcher's

Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for infants in arms and Children all ages.

To avoid imitations, always look for the signature of *John H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Destroy Machine-Carved Glass

Craftsmen Fear Machinery Will Ruin Hand Cutting Trade

Bohemia's famous glass-cutting industry is greatly agitated over the adoption of modern machinery to replace the process of cutting by hand, which has been the source of livelihood of thousands of families.

Fearing ultimate destruction of their handcrafts, 4,000 trade glass cutters, representing an ancient guild of craftsmen, invaded a half dozen factories and summarily demolished large stocks of machine-carved glassware. Intervention by the police failed to pacify the rioters and the disturbances are spreading through the glassware belt.

Production of a carload of machine-cut glassware requires less labor than a single hand-cut vase, the receding glass-cutters declare. They claim the foreign markets still demand hand-cut wares and announce their determination to halt further invasion by technical appliances calculated to destroy their profession.

Elevator Construction

Grain elevator construction in Western Canada this year will be on an unprecedented scale, no fewer than 350 elevators being already projected.

Painful Sprains, Bruises, Restored By Nerviline

There is soothsaying power in Nerviline that has made it famous for nearly fifty years past. It strikes in deeply, it penetrates quickly, it takes away the pain from a sprain and brings grateful relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Lumbarago, if Neuralgia bothers you now and again, use trusty old "Nerviline." It works wonders, whether the pain is internal or external. Get a large 35-cent bottle from your dealer today.

Making Animals Feel at Home

Lions and tigers in Bronx Zoo will have an opportunity to become acquainted with scenes of their childhood. Painted backgrounds purporting to picture the plains of Africa and the jungles of India, are being installed in the outdoor cages. Similar backgrounds were installed in the reptile house several years ago.

MAKE CARE OF BABIES EASIER

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble, for in the majority of cases these mixtures simply drag the child into an unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and guaranteed to be entirely free from opiums and narcotics. Concerning them, Mrs. Jos. Toussaint, Ste. Sophie, Que., writes: "I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Will Hains' Medicine Co., Brockville, Ont.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

The man who knows nothing and wants to find out everything is almost as big a bore as the man who thinks he knows everything and is it upon telling it.

"Moto-Balloon" New Invention

Observation Post Can Be Quickly Transformed Into Semi-Drigible

A "moto-balloon" capable of remaining immobile in the air as an observation post, though unattached or of being transformed into a semi-dirigible within a half hour was launched at Milan, Italy, recently. It was christened the "AP," after its inventor, Colonel Avorio, and his assistant, Pascone.

It consists of a special type of captive balloon with the body replaced by a metallic tubular apparatus equipped with a 100-horse power motor and containing room for a crew of several men. It is capable of flying four hours at a speed between 30 and 40 miles an hour at an altitude of 6,500 feet.

The largest refrigerating plant in the world recently was opened in Buenos Aires. It is capable of handling daily 5,000 sheep and 10,000 cattle.

Treat corns with Minard's Liniment.

Canadian Farmer Tells His Experience

"Les" Booth, widely known Ontario farmer, and a sick man for 20 years, suffered daily, only half alive.

Now strong, robust, vigorous, credits new

found health to Tanlac

Though popularly known as "Les," Mr. Booth's correct first name is George. His home is at 271 Perth St., Brockville. For the past three years he has enjoyed vigorous health but what he endured before then is best told in his own words. "For twenty years my arms, shoulders, back and hips, ached with rheumatism," said Mr. Booth. "Often I had to quit work entirely and I remember one bad spell that kept me in bed for six months."

"My case got to be so chronic that the help ran the farm. I was practically helpless. Even my wrists and hands would swell up so that I couldn't write my name. I divided bedtime, for I got no rest, but lay there in agony, waiting for morning. Nervous spells would seize me and I would tremble all over like a leaf. I couldn't get any benefit from my food and had to force myself to eat. My weight was far below normal."

"Three years ago I decided to give Tanlac a good trial, for nothing else had helped me. I could scarcely believe such results were possible as those Tanlac soon showed. The aching stopped, my appetite came back and I could eat heartily. My nights became more restful, too, and I slept

soundly. I gained 16 pounds which I still retain, and I now work hard outdoors from 8 to 10 hours a day. I never have an ache. It's hardly believable! If folks want to know what Tanlac can do, tell them to write to Les Booth, or to come and see me. I'll tell 'em."

If your health is broken from over-work or neglect, profit from Mr. Booth's experience. Try Tanlac, nature's own body builder, made from roots, herbs and barks. Your druggist has it. Over 52 million bottles sold.

Farmers Appreciated

Better Seed Cars

Attendance at 28 Manitoba Points Reached Total of 4,418

Final report on the work of the Manitoba Better Seed and Poultry Cars which were operated by the Manitoba Provincial Extension Department of Agriculture in conjunction with the Canadian National Railways during February and March, shows that a total of 4,418 people visited the cars and attended the lectures at the 28 points visited.

These figures indicate an average attendance of 157 persons at each point, a satisfactory result in view of the fact that the Better Seed Cars were being operated for the first time and of the weather conditions which prevailed at some points. Of the total attendance 1,057 were children of Grade 8 and over.

In addition to lectures and a display of noxious weeds common to the districts in which the cars operated, practical demonstrations in the cleaning of seed were given and farmers were provided with lines showing the screens which should be used to produce the best results. Live poultry were used in the poultry car which also had accommodation for lecturing purposes.

The staff consisted of George Black, R. Whitteman, F. B. Hunt, and at various times visits were paid by N. C. Mackay and H. E. Wood of the Extension Service Department and by officers of the Agricultural Department of the Canadian National Railways.

Corns cripple the feet and make walking a torture, yet sure relief in the shape of Holloway's Corn Remover is within reach of all.

The man who knows nothing and wants to find out everything is almost as big a bore as the man who thinks he knows everything and is it upon telling it.

Canadian Alfalfa Seed

The superior quality of northern grown seed is nowhere more strikingly shown than in the success obtained with Canadian alfalfa seed. For a long time it was found difficult to grow alfalfa successfully in many parts of Canada, but the development of an ample supply of hardy strains of seed has, to a certain extent, solved the problem of winter-killing and the Dominion's alfalfa crop increased from 288,000 acres in 1926 to 858,000 acres in 1928.

Husband And Wife Are Both Benefitted

Mr. F. Spilay Speaks Highly of Dodd's Kidney Pills

Saskatchewan Man Who Suffered From Kidney Trouble Tells of the Relief He Sought and Found.

Springside, Sask. (Special)—"Both my wife and myself have suffered with strained kidneys, the pain being so bad at times that it was impossible for either of us to stoop and getting up was most difficult and painful. We used Dodd's Kidney Pills and found ready relief in them for this trouble."

This statement comes from Mr. T. M. Spilay, Box 2, Springside, Sask.

Dodd's Kidney Pills are purely and simply a kidney remedy. They act directly on the kidneys, strengthening them and putting them in condition to do their full work of straining the impurities out of the blood.

Dodd's Kidney Pills have restored sound health to thousands of troubled men and women. Give them a trial at once.

The road to good health lies through the kidneys, so keep them in good condition with Dodd's Kidney Pills.

Keene, New Hampshire, claims to have the widest concrete-paved street in the world, measuring 110 feet from curb to curb.

APPLE SAUCE

He was telling a story about the fire. "Then we sees Alf at the top of the window and we shouts to him to jump into the tarpaulin. An' he jumps. Talk abaht a joke on Alf. We hadn't got no tarpau-lin!"

• • •

Doctor: Did your wife say anything before she died?

Widower: Yes, she talked uninterrupted for fifty years.

Teacher: William, can I trust you to take a note home to your father and bring me a reply?

William: Sure, if Mom don't see me give it to him.

It takes 1500 nuts to hold an automobile together, but it only takes one to scatter it all over the landscape.

A Scotchman found it necessary to notify his wife that he might not be home for the evening, in which case he would telephone. This is what he told her:

"If I can't get home I'll ring you at six o'clock from a pay station, when you hear the bell ring you'll know it's me. Don't answer and I'll get my nickel back."

A LITTLE HOBBY IS A WONDERFUL THING

Consider the golfer, for he is the Son of Joy and the heart of his wife rejoiceth in him.

He requireth not to be awakened but ariseth at dawn and arouseth the whole house.

Mighty are his preparations, and there is much rushing about among the women to find his THINGS.

He swalloweth his breakfast without complaint.

Optimism is his middle name; and in his lexicon there is no such word as "rain."

His moods, his gourches and his temperamentalism are known only to his God and his caddie; and, in the open, where it can do no harm, he bloweth off the carbon of his brain-storms.

"The touch of liver" knoweth him not, and dispesia is a stranger to him.

He lacketh not a topic for conversation and concerning his score the truth is not in him.

He is happy in his folly, and weareth the smile that will not come off.

He preferreth a pleasant day unto a moonlight night and a beautiful course unto a beautiful woman.

And a smile of approval from his caddie, he findeth more thrilling than the smile of blondes or sirens.

For every man must have his folly, whereon he worketh off the original sin within him.

And some choose wine, and some tobacco, and some flirtation.

But the GOLFER exceedeth them all in wisdom.

And no man can be both a good golfer and a bad husband.—Helen Rowland.

last night.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 17th, June 1927 for the conveyance of His Majesty's Mails, on a proposed Contract for a period not exceeding four years, six times per week on the route between Carbon and Grainger, from the 1st. July next. of Postal Service

**WHEN BANK OF MONTREAL TOKENS WERE USED FOR SMALL CHANGE**

FOUNDED before Canada had any currency of its own, the Bank of Montreal in the early part of the Nineteenth Century obtained authorization from the British Government to issue copper tokens for small change.

Reproduced herewith are the two sides of the one-penny token of 1838 and of a "habitant" token of 1837. The obverse of the former shows a picture of the building used by the Bank of Montreal at that time, the obverse of the latter a typical farmer of Lower Canada, now Quebec. The reverse of both coins is the same, showing the arms of the city of Montreal.

Throughout its long history, the Bank of Montreal has always been active in serving the financial needs of the people of Canada, steadily extending its service as the need and opportunity for it arose.

Operations of the Alberta Wheat Pool's Prince Rupert Terminal

The Alberta Wheat Pool has loaded twenty-two ships with wheat from the 1926 crop at Prince Rupert and expects to bring the total up to twenty-four before the crop movement is ended this spring.

The Alberta Pool terminal at Prince Rupert has already handled 5,188,000 bushels and the total will reach 5,788,000 bushels within a few weeks. This is a larger total than was anticipated last fall.

The Prince Rupert house was built and is owned by the Canadian Government, has a capacity of 1,250,000 bushels and is probably the largest handling terminal on the coast.

It is under lease to the Alberta Pool for a term of two years. Joseph Bennett is superintendent of this elevator.

Through the Pool's extensive operation, the ocean freight differential has disappeared and grain is shipped to Europe from Prince Rupert at the same rate as from Vancouver.

On the twenty-four ships already loaded or committed, six carried grain to the Orient and eighteen to Europe.

Previous to the Pool leasing the grain terminal, no wheat had been shipped from that port.

RHEUMATIC MISERY

Relief Can Only Come Through Better Blood—Liniments of No Use

In no other disease does the blood become thin so rapidly as in rheumatism. Not only does it become thin but it is loaded with impurities—rheumatic poisons. Without the proper treatment these poisons increase, the inflamed joints swell and the patient becomes a cripple. Most treatments simply aim to keep down the pain, hence with every unfavorable condition a renewed attack follows.

To cast out rheumatism the blood must be enriched and the rheumatic poisons driven out with the natural secretions of the body. This can best be done through a course of Dr. Williams' Pink Pills, which have a specific action on the blood, giving it new richness and redness. These pills have tried this treatment with beneficial results. That every sufferer from rheumatism who does not try Dr. Williams' Pink Pills is neglecting the most hopeful means of recovery is shown by the statement of Mr. David Carroll, Petion, N.S., who says: "For years I was troubled with rheumatism. The pains were not continuous, but they always re-appeared, and kept getting worse. I tried several electric belts and many medicines, but did not get more than temporary relief. Only those who have suffered from this trouble will realize what I suffered at that time. I had begun to despair of getting better when a friend urged me to try Dr. Williams' Pink Pills. In a short time I could feel this medicine helping me so I gladly continued taking the pills and soon found that every trace of the trouble had disappeared and there was a great improvement in my general health. It is now two years since I took Dr. Williams' Pink Pills and I have not had the least twinge of the trouble in that time. That is why I confidently recommend the pills to other sufferers."

You can get these pills from any medicine dealer by mail at 50c a box from The Dr. Williams' Medicine Company, Brockville, Ont.

For further and most important details, will be of interest to every sufferer. Price of the book 10 cents the copy.

Three Good Reasons

Auto Tourist: I clearly had the right of way when this man ran into me, and yet you say I was to blame. Local Cop: You certainly was. Autoist: Why? Local Cop: Because his father is mayor, his brother is chief of police, and I go with his sister.

If you want to be sure of getting a lot for your money, see a reliable man. They buy them for sale.

DANDRUFF.

Stop it with Minard's. A splendid tonic for the scalp.

MAY 8

PETER AND THE RISEN LORD

Gospel Text: "Blessed be the God and Father of our Lord Jesus Christ, who according to His great mercy begat us again unto a living hope by the resurrection of Jesus Christ from the dead." 1 Peter 1:3.

Lesson: John 20, 149; 21, 1-23.

Explanations and Comments

1. Mary Magdalene's Discovery at the Tomb of Christ, John 20, 1-2. A stone had been placed over the entrance of the tomb in which the body of the crucified Saviour had been laid (Mark 15, 46), and the stone had been sealed (Matthew 27, 66). The stone was probably a cylindrical one which could be rolled aside in a groove at the base of the opening of the tomb. Early on Sunday morning Mary Magdalene came to the tomb with the others, as the "we" in the next verse indicates. She found the stone removed. At once she hastened to tell Peter and John (John always refers to himself in His Gospel as "the disciple whom Jesus loved"). "They have taken away the Lord out of the tomb, and we know not where they have laid him," she cried.

"The Catholic, who cannot find the grace in these Easter days to have the stone rolled back, whether it be pride, greed, or pleasure, that keeps him mired in his own selfishness, is certainly wasting the graces of Easter," — Catholic Standard and Times.

2. Peter and John at the Tomb of Christ, John 20, 3-10. The two disciples ran to the tomb. John reached there first and, looking in reverently and wonderingly where the Saviour's body had rested, he beheld only the linen cloths in which it had been wrapped. Then impetuous Peter rushed into the tomb and saw a wonderful thing: the linen cloths which had enveloped Christ's body were rolled up and the napkin, which had been about his head, was in another place. Leisurely and orderly had been Christ's departure. Had others carried off his body, the grave clothes would not have been left. Then John also entered the tomb, and the sight sufficed him; he believed that Christ was risen. "A heart full of love for Christ requires but little proof to find in him a living Lord." The apostle of love was the first person to believe in the risen Christ, and he it was who afterwards recorded that beatitude which fell from the lips of his living Lord, a beatitude the blessedness of which he was the first to know and in which we all now share. "Blessed are they that have not seen, and yet have believed." —C. R. Erdman.

3. For all pain—Minard's Liniment.

Make Mendicancy An Art

Beggars in France All Carry Manual of Instructions

Mendicancy is an art in France, and Gallic beggars have a "Manual for the Use of Beggars" to instruct them in the art.

The book, which includes a "Sack or Hat" of good prospects, emerged from the pocket of a beggar when a Paris judge admired his knowledge of humanity.

"Why, it's an art," exclaimed the beggar, drawing forth the textbook in explanation.

Most of the chapters are devoted to technical instruction, such as how to operate at baptisms, marriages, funerals and the methods of attracting sympathetic attention.

There is instruction in how to seem blind, simulation of certain ailments, taking of suicide attempts and the concealment of legs or arms for displacement by false ones.

A scientific expedition in South America has discovered a tunnel three miles long and several inches in diameter, made and regularly used by ants.

An Oil that is Prized Everywhere.

Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

He: "Are you working, Joe?"

Mike: "Sure, I got a dandy job fixin' de trolley tracks. I hab to quit every minute or so to let the cars pass."

Little Boy: "Mother, who put the statue under the kitchen sink?"

Mother: "Hush, sonny, be quiet. That's the plumber."

China, the home of the silkworm, is buying quantities of silk in the finished garment from America and France.

Record Building Activity

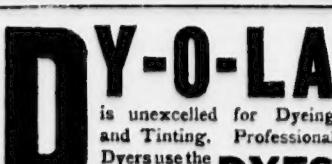

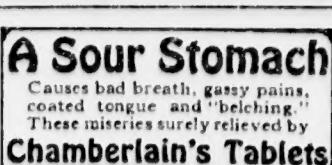

Indications are that building in Canada will be more active than it has been for several years. For the first three months of the year there is proposed construction amounting to \$208,432,000, which is actually 44 per cent. higher than the total in sight at the corresponding period of 1926. The lead is taken by residential contracts, which is a natural result of the upward trend of business that has been noted for many months past.

A Real Asthma Relief. Dr. J. D. Kellogg's Asthma Remedy has never been advertised by extravagant statements. Its claims are conservative. Indeed, when judged by the benefits which it performs. Expect real relief and permanent benefits when you buy this remedy and you will not have cause for disappointment. It gives permanent relief in many cases where other so-called remedies have utterly failed.

If success doesn't turn the average man's head it's because he has a stiff neck.

If at all possible, nurse baby. If not, use Eagle Brand, the safe food that doctors have endorsed since 1857. E2027

PAY TRIBUTE TO BRITAIN FOR AID GIVEN IN CHINA

Vancouver. — Mail advices from Shanghai give details of the testimonials sent the British Government by the non-British residents of the big Oriental city as a tribute to the prompt action of Britain in sending troops to protect the settlement.

The text of the vote of thanks was as follows:

"We, the undersigned, non-British residents of Shanghai, wish to express our appreciation to His British Majesty's Government for the prompt and adequate measures taken for the defense of Shanghai. Though we realize that, quite naturally, the despatch of troops was primarily for the defense of its own nationals, all foreigners residing here, of whatever nationality, have benefitted equally. If the British troops had not arrived when they did, we should now all be in an extremely uncomfortable and dangerous position, if we had not actually been forced to leave the place. It is certain that the women and children would have had to be evacuated, and the settlement would probably have shared the fate of Hankow and Kukliang."

"The opinion is heard freely expressed on all sides that Great Britain, by the courageous stand she has taken in this crisis, has again given the lead to the whole civilized world."

"Amplifying the above were the following expressions:

"The events of the last few days have brought home forcibly to all of us the immense value of the timely and adequate steps taken by the British Government for the protection of Shanghai. The mere fact of the arrival of the British forces has prevented an earlier outbreak of terrorism in the settlement itself."

"It has, for some time, been clear to most of us that but for the British troops we would not have been here today."

"Of whatever nationality or creed, we must admit that when others stood aloof, the British Government acted, in spite of all obstacles. We all know of the political struggles going on in nearly every country in the world today. We know that the British Government is daily harassed and criticized by forces at work to undermine and to destroy. These forces are at work everywhere, here and in our own respective countries."

"It is seldom that most of us out here find an opportunity of doing a good deed, but here is an excellent chance of adding one mite to a big cause; to silence, if but for a brief spell, the stupid braying of ignorance, cunningly employed by dangerous forces."

It is interesting to note that there were 2,350 signatures of members of 32 different nationalities.

Have Not Prepared Draft

Geneva. — The preparatory disarmament commission adjourned without fulfilling its allotted task of preparing a draft treaty for the reduction of armaments. President London believes a successful disarmament conference is assured.

Cable Congratulations to Prince

New York. — The Prince of Wales has been congratulated by cable by the American Society for the Prevention of Cruelty to Animals. The Prince refused to attend a bull fight which had been arranged in his honor.

Good Reception in North

Bernard Harbor, N.W.T. (via Alcan Radio). — Fans here have been blessed with phenomenal reception during the winter and still are able to get American as well as European stations during the daylight loud speaker volume.

Mint at Canton Burned

London. — An exchange telegraphic despatch from Hong Kong reported receipt of a message saying the Chinese Government (Cantonese) mint at Canton was ablaze. Arson was suspected, the message added, and Tal Chuk Man, described as leader of the reds, had been arrested.

May Extend Empire Settlement Agreement

New Features Likely to be Included in Proposed Extension

Ottawa. — An extension of the 3,000 - family Empire settlement agreement is awaiting the consideration of Hon. Robert Forke, Minister of Immigration, in London, and it is possible that some new features will be included in the new agreement.

There are several new proposals respecting boy immigration which will be taken up with the British Government this summer. Mr. Forke will visit all the Immigration Department agencies in Great Britain and will also visit the Scandinavian countries to confer with authorities there.

Prepare for Advance On Canton

Four Armies of Hankow Nationalists Ready for Attack Says Report

Canton, China. — The Hankow section of the Nationalists (Cantonese) is reported to be preparing for a general advance upon Canton with four armies.

The armies, it is said, will move through Honan province, attacking Canton by way of the east and north rivers and utilizing the Red forces distributed in the districts en route.

Canton, important source of revenue and site of a large arsenal recently declared its independence of both the Hankow and Nanking Nationalist regimes. Later, however, the moderates rounded up the Reds after which the city nominally adhered to the Nanking section.

May Propose Abolition Of Large Submarines

Reported Intention of Britain at Three Power Naval Conference

Geneva. — With the preparatory disarmament commission disbanded, interest now centres on the three power naval conference between Great Britain, the United States and Japan, which is expected to open here about June 30, especially as reports have already circulated that Great Britain may propose abolition of large sea going submarines.

In this connection, experts have pointed out the likelihood of the United States insisting on the use of these craft to maintain communications with distant possessions.

Statue of Laurier

Memorial of Parliament to be Erected at Ottawa

Ottawa. — A statue of Sir Wilfrid Laurier, the memorial authorized by Parliament to express the respect and veneration of the Canadian people for this statesman, is to be erected before July 1, near the southeast corner of the east block, facing Connaught Place from the sloping lawn of the terraced Parliament Hill.

The location is close to Wellington Street and the Chateau Laurier, and today four stakes mark the site of the concrete base which will be constructed immediately to carry the statue.

The statue itself is the work of Emile Brunet, of Montreal.

Not Seeking Prize

Paris. — Major Francois Coll, French aviator, said that he and his partner, Captain Nungesser, with whom he is planning a trans-Atlantic flight, are not competing for the \$25,000 prize offered by Raymond Orteig for the first flight between New York and Paris. "Our only engagement is to try for a straight line non-stop flight record," Major Coll said.

To Be Tried As Spy

London. — Sitting at Old Bailey, the grand jury returned a true bill against Lieut. Commander Colin Mayers, retired British naval officer, who was arrested in March for alleged illegal possession of submarine plans. Commander Mayers will be tried on a charge of obtaining "certain plans, sketches, documents and information calculated to be useful to an enemy."

W. N. U. 1679

OFFER HINTS FOR CELEBRATION OF CANADA JUBILEE

Ottawa. — Ten thousand copies of a pamphlet containing general suggestions for the guidance of committees in charge of local celebrations have been sent by every organized municipality in Canada, to all members of Parliament and members of provincial legislatures, by the national committee for Jubilee celebration.

It is suggested that the mayor or reeve should call a public meeting to select a Jubilee committee. This committee would have charge of the program for July 1, 2 and 3, and would appoint subcommittees on various phases of the celebration. The pamphlet contains suggestions as to decorations, ceremonies and time for the events, with proposals regarding parades, school children, tableau, veterans and militia, new comers, old settlers, Indians, decorations of monuments etc.

The national committee encourages the madie celebration for Friday July 1 with a sports program for Saturday and Thanksgiving service on Sunday.

Predicts Population Of Eight Billion

Total Number on Earth in 300 Years Says German Professor

New York. — Within 300 years the human race will reach a total population of 8,000,000,000 persons, the estimated capacity that can live on the earth's surface, says Professor Albrecht Penek, of the University of Berlin. He arrived on the Hanseatic liner Cleveland to attend the bicentennial of the American Philosophical Society at Philadelphia. Asked what may occur when the earth's surface becomes congested with people, he said: "It passes the faculties of my imagination."

"Dud" Shell Kills Workman

Men Were Removing Debris From Famous Langemarck Field

Paris. — The casualty list of the World War was augmented by three deaths when a terrible explosion occurred on the scene of the famous battle ground, Langemarck, well known to Canadian soldiers. Two workmen engaged in the still unfinished task of clearing debris from the battle-fields, while moving a giant unexploded shell found buried in the earth, somehow jarred the brass cap on its nose and were blown to bits in the blast that followed. Another workman standing thirty yards distant was struck by a shell fragment and died in hospital.

Plan Longest Non-Stop Rail Run

London. — Plans have now been completed for the new longest non-stop rail run in the world from London to Carlisle, in Lancashire, on the Euston-St. Pancras route, the run will be 256 miles, ten miles longer than the present longest non-stop run on the G.W.R. from London to Plymouth.

Constructing Fast Submarine

Rome. — An attempt to cross from

Europe to the Far East in 100 hours by means of an especially con-

structed submarine boat is to be

made late this year by Enrico Bu-

atti, owner of an automobile factory

in Alsace, France.

Preparing for Long Trip

Two Parties of Mounted Police Leaving Soon for Far North

Ottawa. — Specially selected for physical qualifications and trained to the infinite, two parties of Royal Canadian Mounted Police are making final arrangements at headquarters here for an early departure to the far North where they will be stationed for at least two years.

One party will sail from Vancouver in May, for service in the Yukon while the second will make a tremendous overland journey north of Edmonton, some of them designed to do patrol work at Herschel Island, the extreme Northwest of Canadian territory. The final inspection of the men will be made by those in charge of the northern posts.

Corporal T. Reddyhoff and Constables A. W. King and W. H. Maf- fett will go to the Yukon.

Randy to leave on the Arctic trip are Constables M. A. Conchman, W. S. Carter, R. J. Bell, T. G. Dingley and C. Ethier.

FIX RAIL RATES THAT WILL HELP CANADIAN TRADE

Ottawa. — The order in council under which the Board of Railway Commissioners are conducting an inquiry into freight rates required the commission to fix just and reasonable rates that would encourage and develop Canadian trade.

However, A. Fraser, K.C., counsel for the Canadian National Railways, insisted this did not for a moment suggest that the present rates were unjust or unreasonable when they received the approval of the board.

Conditions were constantly changing, Mr. Fraser said, and what was just and just at some period in the past might need adjusting now. This was what the board was now called upon to consider.

Some discussion arose between Deputy Chief Commissioner Vien and counsel as to exactly what were the limitations of the powers of the Governor General in council to issue instructions to the board as to the lines upon which they should proceed in the adjustment of rates. It was agreed that the commissioners were the sole judges of what would be just and just rates, subject to appeal to the Governor General in council and His Excellency's powers of review were wide, almost to the degree of being arbitrary.

It was further agreed that an order in council might be set forth giving certain principles for the guidance of the Railway Board, but if those principles could be shown to be in conflict with the provisions of the Railway Act the order in council would have to go.

Intends to Attempt Trans-Atlantic Flight

French War Ace Plans to Make Trip in September

New York. — Captain René Fonck, French war ace, has arrived from France. He expressed sorrow over the death of Lieutenant Noel Davis and Lieutenant Stanton H. Worster in Virginia, and announced that regardless of how many others might precede him across the Atlantic, he would attempt to fly from New York to Paris in September.

Captain Fonck said the plane he will use will be completed at College Point, L.I., in July and will be a duplicate of the biplane which was burned up with a loss of two lives when taking off last September.

Despite tragedies the backers of the Bellanca plane, which records established a new world's endurance record, have announced they are practically ready to hop off for parts.

This plane, in which Clarence D. Chamberlain and Bert Acosta started in the air almost 52 hours, is the most serious contender in the race.

The need of the day for Acosta has not slowed up preparations for its flight.

Served in Canadian Forces

Funeral of U.S. Citizen Attended by Canadian "Mountie" in Full Regimental

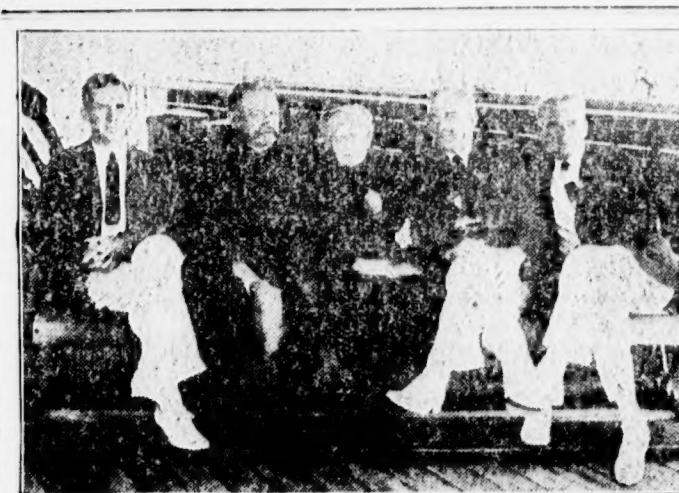

Washington, D.C. — For the first time in history a Canadian Mounted policeman in full regimental attire attended the funeral of a United States citizen on United States soil.

Sergeant Major Richard Upton, a native of Baltimore, who served in the Canadian forces throughout the war, was buried here and Corporal Eugene Lamont, attached to the Canadian delegation, attended the funeral.

Mr. Massay, the Canadian minister, was represented by his private secretary, A. T. Stone. The coffin was draped with the United States and Canadian flags. Stone laid a wreath on the coffin.

Will Take Trip Across Canada

Montreal. — Miss Hortense Cartier, 18-year-old shriveling daughter of Sir George Etienne Cartier, one of the fathers of Confederation, has accepted an invitation from E. W. Beatty to take a trip across Canada next July in connection with the diamond jubilee celebration. Miss Cartier resides at Cannes, France.

Westerners Back from World Tour

On April 12, 1927, the Canadian Pacific flag-ship Empress of Scotland docked at New York after a successful four-month voyage around the world to twenty countries. This group of passengers are all from British Columbia and are, left to right, George A. Tarbell, Courtenay; Major and Mrs. Thomas H. Worsnop, Kamloops; Daniel Kilpatrick, Courtenay; and Charles E. Blaney, Vancouver.

New Carillon Of Bells At Ottawa Said To Be Largest Of Its Kind In The World

The carillon of 53 bells built at the bell foundry in Croydon for the Canadian Houses of Parliament at Ottawa, is the largest of its kind in the world. It is practically a sister carillon to the five bells installed by the same firm, Gillett and Johnston, in the Park Avenue Baptist church, New York, but whereas the New York Bourdon bell weighs $9\frac{1}{4}$ tons, the Ottawa Bourdon weighs ten tons. The 53 bells extend through four and a half chromatic octaves from the Bourdon, low "E" to the 14 pound top treble, high "A."

Every bell is in tune with itself—that is, it has been tuned accurately on the five tone harmonic principle. The whole carillon has also been carefully tuned to the scale of equal temperament, so that the performer can moderate from one key to any other without offending the ear. Before Bach invented the "scale of equal temperament" over 200 years ago, it was impossible to attain this result in ordinary music, and until the last few years this refinement was unknown to the bell world.

The carillon also has been tuned absolutely to international pitch, which is in general use for ordinary musical instruments and modern concert practice in both hemispheres.

The total weight of the bells is 53 tons and the weight of the steel framework and fitting is about 22 tons.

The inscription on the Bourdon bell is in English on one side and in French on the other; and round the top of the bell a continuous design of maple leaves has been moulded. At the special request of the Canadian Government, the wording of this inscription has not yet been divulged.

The world's record was achieved in the time taken to construct the carillon—from the date when all the details were settled, all 53 bells with the necessary machinery have been finished in 18 months.

The 10-ton Bourdon bell will be the second largest individual bell in Canada and the third largest on the American continent.

An elaborate "practise clavier" is being supplied with tuned bars and resonators and having a keyboard exactly similar to that of the carillon clavier (or console) so that the carillonneur can learn fresh pieces without annoying the neighbors. A more important use of the "practise clavier" is to enable pupils to learn the rudiments of playing and acquire a certain amount of proficiency—particularly in pedal work—before playing on the tower instrument is permitted.

The clock mechanism is divided into three separate units, the "going train" driving the hands of the four 15 ft. 9 in. diameter clock faces, while the "striking train" and "quarter train" are placed 50 feet below, under the bells. The old-fashioned clock weights are dispensed with and in their place powerful electric motors lift and release the enormous clock hammers. The carillon will be shipped to Canada shortly, so as to be inaugurated on Dominion Day, July 1st. The Victory Tower is possibly the finest position in existence for the purpose of carillon music.

Sodium Sulphate

In Canada sodium sulphate, in the form of salt cake, finds its largest use in the pulp and paper industry, and is also employed in the metallurgical, glass, dye, textile, and other industries. Eighty-three occurrences of natural deposits of sodium sulphate have been located in Western Canada and an investigation of 21 of these by the Dominion Department of Mines shows the presence of over 115,000,000 tons of hydrous salts, mainly sodium sulphate.

There are about 500 lobster canneries in Canada employing nearly 7,000 people. The normal catch of lobsters amounts to about 35,000,000 pounds.

A lot more people would take a friendly interest in you if you made a noise like a roll of greenbacks.

Values of Farm Lands

Average Value for Whole of Canada is \$37 Per Acre

According to a recent compilation made by the Canadian Government Bureau of Statistics the average value of the occupied farm lands of Canada as a whole, including both improved and unimproved land, as well as dwelling houses, barns, stables and other farm buildings, is returned as \$37 per acre, as compared with \$38 in 1925, and with \$37 in each of the two previous years. By provinces the averages are as follows: Prince Edward Island, \$46; Nova Scotia, \$26; Manitoba, \$29; Saskatchewan, \$25; Alberta, \$26; British Columbia, \$80. The average values in 1926 of orchard and fruit lands, including buildings, etc., in the fruit-growing districts are estimated to be as follows: Nova Scotia, \$129; Ontario, \$121; British Columbia, \$32.

Winnipeg Newspaper Union

The Bloused Silhouette a Smart Feature of New Mode

A great deal of charm is expressed in this frock with its bodice slightly bloused at the sides and across the back. The convertible collar and scarf tie lead the mode in style, while the skirt ripples at the sides in an extremely smart way. No. 1429 is for misses and small women, and is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 3½ yards 39-inch material; or 2½ yards 54-inch. 20 cents.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

How To Order Patterns

The waters in the Canadian national parks in Western Canada offer splendid inducements to the angler. Five varieties of game trout have their habitat in the waters of the parks, namely, cut-throat, lake, Dolly Varden, bull, and brook.

Highway Construction

Millions Spent on Provincial Highways in Canada in 1926

During 1926 a total of \$45,563,000 was spent on construction of all provincial highways in Canada, according to computations made by A. W. Campbell, Dominion highway commissioner. Of this total \$29,555,000 was spent on construction and the balance, \$15,978,000 on maintenance of highways already constructed. The total mileage of roads involved in this aggregate expenditure was 46,821.

Older Ontario led with a total outlay of \$21,170,000, total mileage involved being 15,861. The other provinces' expenditure was divided as follows:—Nova Scotia, \$1,900,000, mileage 13,000; Saskatchewan, \$3,925,000, total mileage, 2,000; British Columbia \$3,478,000, mileage, 4,000; Alberta, \$2,140,000, mileage, 1,928; New Brunswick, \$1,450,000, mileage, 1,725.

Manitoba spent \$1,100,000, of which \$950,000 was on construction, total mileage, 800; Prince Edward Island, \$230,000, mileage, 700.

The total mileage of highways constructed in Canada in 1926 was 5,768, and the largest mileage in any province was New Brunswick, with a total of 4,001; Older Ontario, with 589; Northern Ontario, with 823 miles; Quebec, with 718; Manitoba, with 665; Alberta, with 652, of which 275 was colonization roads; Saskatchewan with 489; British Columbia, with 503; Nova Scotia, with 252, and Prince Edward Island, with 30 miles.

Many Uses of Wood

Demand for Wood Now Greater Than Any Time in World's History

In spite of the increasing use of substitutes for wood the people of the world never before used as much of that material every week as at the present time. The modern steel ocean passenger ship has much more wood in its decks and fittings than would have built an entire wooden ship of sixty or seventy years ago. It was in all seriousness and without any idea of a play on words that a noted Canadian conservationist pointed out recently that in spite of all modern inventions man is still surrounded by wood in every stage of his progress from the cradle to the grave.

Demand for Poultry

During one week in April, orders for over 75,000 white Leghorn pullets, from six weeks old up, had to be refused by breeders in Southern British Columbia on account of British Columbia on account of shortage of stock, though hatchlings this season were larger than ever. Some breeders have given notice, that orders for next season must be placed at once to ensure delivery.

Canada's exports of paper exceed those of any other country in the world, and in the matter of newsprint paper her exports are probably greater than those of the rest of the world combined.

Ted—"That broken-down old man wants to get married again."

Rod—"Wants to be repaired, eh?"

Visiting Mindster: Ah, my unfortunate friend, this world is full of trials.

Hard Case: It ain't the trials that worries, sir; it's the verdicts.

Vital Importance Of Forests As A Source Of Employment Should Be Fully Recognized

Commercial Fisheries in the West

Fish to Value of \$3,522,167 Caught in Lakes and Rivers of Western Canada in 1926

About 90 per cent. of the \$3,522,167 worth of fish caught in 1926 in the fresh waters of the lakes of the Canadian Prairie Provinces—Manitoba, Saskatchewan and Alberta—was found a ready market in New York, Chicago, Buffalo, Detroit and other American cities.

The market value of fish caught in the three Prairie Provinces shows an increase in value of \$1,101,842 compared with the value in 1925. Whitefish, tullibee and pike were the principal kinds of fish exported to American markets, the first named being most in demand. Last year 111,000 pounds of royal sturgeon, from which comes the delectable and expensive caviar (the market price of which is about \$1 per pound), a favorite dish with many epicureans, were caught in Manitoba.

Western Canada is chiefly famous as a great wheat producing and mixed farming country and comparatively little is known of its commercial fisheries and other natural resources. In the provinces of Manitoba, Lakes Winnipeg, Manitoba, and Winnipegosis are really fairly sized inland seas that yield the principal supplies of fish in Manitoba. In Saskatchewan the numerous lakes in the central and northern parts of the province are the sources of supply. The Alberta commercial fisheries are to be found mainly in the lakes south of Edmonton.

Ploughing Peas Under As a Green Manure

Results in a Lowered Yield of Wheat for Following Season

The ploughing under of peas as a green manure has resulted in a lowered yield of wheat the following season as compared with the bare fallow, in experiments conducted at the Brandon, Manitoba, Experimental Farm. Although the ploughing under of the peas may increase the nitrogen content of the soil, this is more than counterbalanced by the loss of moisture involved. The later the green peas are ploughed under the greater is the amount of water dissipated. The experiments were made on a rich loamy clay soil.

Jasper National Park

Jasper national park in Alberta, with an area of 4,400 square miles, is one of the largest "playgrounds" in the world. A part of the reserve to the north of the central section is still unexplored, but the park is being rapidly opened up by the construction of trails and highways.

Visiting Mindster: Ah, my unfortunate friend, this world is full of trials.

Hard Case: It ain't the trials that worries, sir; it's the verdicts.

Just now a great deal is being heard about Canada's forest resources, their conservation and their destruction. "Save the Forest" campaign was held throughout Canada during the week April 24-30, and the Federal and Provincial governments, Organized Clubs, Pulp and Paper Association, Schools, Churches, Radio Stations and Theatres are co-operating in emphasizing the necessity of preventing forest fires and conserving our Canadian forest resources.

The potential value of the forests as a very great asset is being emphatically stressed, but the value of the forests as a source of employment affects us all vitally and particularly, says the Natural Resources Intelligence Service of the Department of the Interior, Ottawa. According to the latest census of figures, there are nearly 130,000 persons employed in the wood and paper industries of Canada and 40,000 in the logging industry. In the construction industry where wood plays such an important and essential part, another 185,000 are employed. Transportation services, which owe so much to products of the forest, which constitute one of their largest and most consistent sources of revenue, afford employment to nearly one quarter million persons, and so on. In fact almost every industry, not excluding agriculture itself, directly or indirectly relies for necessary equipment and supplies on the forests.

In connection with trapping, hunting and fishing, the value of the forest is of first importance, for if the forests were destroyed, fur and game animals would rapidly become nonexistent. The beauty of the forests, lakes and mountains, the abundance of game and fish, attracts many visitors and provides health and pleasure, also a large annual revenue to Canadians.

Forests grow, mature, deteriorate and decay. Once a tree has attained maturity nothing is to be gained by postponing its cutting. When cutting the mature tree, however, the protection of the small tree struggling for its existence nearby should be assured. The small trees of today are our forests of the future.

One well-known forest authority has suggested that in each district where timber rights are granted, the average annual growth per acre be ascertained and only the larger trees, to an extent not exceeding the annual growth of timber as a whole per acre, be cut. The forests would be growing in value year by year if this plan were followed.

The planting of trees and shrubs along highways and bordering fields for windbreaks will, as the practice increases, become a means of increasing the wood supply materially and, in the course of years, may build up a valuable source of timber supplies.

Date of Ploughing Summer-Fallow

Early Ploughing Appears to Give Better Results

In experiments conducted at the Brandon, Manitoba, Experimental Farm, the yield of grain following fallow has varied inversely with the lateness of ploughing the fallow. Ploughing on May 15 gave better results than ploughing on June 15, and ploughing on July 15 decreased the yield still further. Besides, the July ploughing does not control annual weeds. They grow unmolested until the time of ploughing and thus use up a great deal of valuable moisture.

Government Will Be Popular
The Government has ordered a national census on April 21, and has simultaneously published a decree providing imprisonment and fines for subjects giving false data. The only exception to the decree against falsifying is in the case of women who declare themselves younger than they actually are. No fine or imprisonment term will be levied upon them.

Sympathy is like blond hair; a lot of it is not the real thing.

CHAPTER XXXIV Continued

Again Brandon smiled weakly, and indicated the bandages. "She is to blame for that. But I do not think she will give an alarm. That will await the men you left in the barn. The police will not be concerned much, when you have returned to them the plunder you collected. When you have sent them that, you will be as I said—paid double."

The expression on the face of the club house official who had heard the cryptic conversation began to show a gleam of understanding, a curious understanding of the holdup which had sent the group of half hysterical women back to his hospitableness. Antoine noted and shifted uneasily. Brandon too, alert despite his pain, saw. He called the man to the couch:

"Do not be concerned by the little drama in the mist tonight," he said, between his laborious breathings. "Your patrons who were robbed will receive their valuables. I have reason to believe. They will be none the worse for their experience. They may not know of it, of course, but they played their parts tonight in a great adventure."

Meanwhile, Joanna, her wrap unfastened again, her slim hands gripped to the wheel of the gray car, fought her way along the narrow road. When she rounded a turn just above the village of La Turbie little pin points of light shone up. Far down out over the sea, the light house at the base of Cap Martin glowed like a far away eye of the night. The mist was lifting before the threat of dawn. Beyond La Turbie the country, although chaotic, was visible. The lamps along the sea boulevard were discernible.

The thought of Kenilworth, still captive with the other men in the hidden barn of the bandits, bothered

If You Need a Tonic,
Get The Best!

—Hayford

Mrs. Sophie Salway of 125 Wilson St., Woodstock, Ont. (picture above) said: "I had an operation and was expecting to have to undergo another. I was in a very poor state of health—was weak, it seemed that all my strength had left me, I could not do anything. It was quite necessary that I have a good tonic to make me strong enough for my second operation so I took Dr. Pierce's Golden Medical Discovery and it soon had me well and strong, and I came thru the operation without any trouble. Several other members of my family have taken the 'Golden Medical Discovery' with equally good results and all have words of praise for it."

Ask your druggist for Dr. Pierce's Discovery, in tablet or liquid form, or send 10c for trial pkg. of tablets to Dr. Pierce's Laboratory, in Bridgeburg, Ont.

now! All else has just been a chimera. It is you who have shown what love's glory is! Please my wonderful dear will you take me in and comfort me?"

John's voice, that was! John: Passion and pleading and humility, it is. All those nuances of adoration, submission, hope and prayer and yearning that Joanna had never heard in it.

Now, Yvonne's low, silvery caresses, infinitely sweet, and infinitely soothed:

"Are you content will you be content—to accept from me the love that is the only kind that I may give you? The love that has blossomed and withered so many, many times? Mine can never be a pure love, my friend. And I may never promise its constancy. It is the crown that you may wear only while you can defend, and keep it. That is what is said of me, and my love my dear, and I must not say to you that what is said is untrue. If we love, you and I, and if I give to you the portion I may spare you, you must be content. It can never be a holy love—

there must always be something wanton in it. It must be the kind we take and put aside. Will then, satisfy you?"

He crept closer to her. She put her hands about his face, warm mesmeric hands. Her rich, soft, round lips—lips that were a sign of all love-madness since the world began went down to his. Then it was John's voice again:

"There can be no other love as wonderful as you can give. In any way that I may have it, it'll be pure or deified, I want it!"

A scream, a torrent of them, a frenzy of them, surged to Joanna's lips—and halted there. It was Yvonne who rose, slowly, sinuously gracefully, Joanna saw as if it were some strange, fantastic symbol taking form at the rim of a distant horizon, a smile, a faintly blued, queer, and flitting smile, at Yvonne's red lips. And John saw, and got to his feet, sense-dazzled and marvelling again that low, soft, silvery caresses of Yvonne:

"What a poor, damnable thing you are, my friend! Go preach, my dear. Preach to Joanna, preach to the heart and the soul and the wonder of her! Preach—but do it on your knees and take your text from the lesson I've taken the trouble to give you. Tell her that you've learned, at last, that you're only make-believe—you and all your kind. Tell her that it'll have you, you'll try to learn from her the sort of thing her kind can teach."

John's voice, then, but Joanna didn't hear. She stumbled blindly back through the curtains.

(To Be Continued.)

Alberta Sugar Beet Industry

The Canadian Sugar Factory Co. Ltd. of Raymond, Alberta, intends growing beets on half an acre of land in the vicinity of Red Deer this summer for test purposes. If successful, a new plant is likely to be set up in that vicinity.

RESTORED TO GOOD HEALTH

Mother of Eleven Children Praised Lydia E. Pinkham's Vegetable Compound

Her Interesting Experience

Buckingham, Quebec. "I am the mother of eleven living children, and my baby is five months old. I am only 38 years old and I have taken Lydia E. Pinkham's Vegetable Compound for weakness and my nerves. I knew of it from my sister, Dame Edouard Bellefeuille of Ramsayville. For five years I was in misery and was always ready to cry. Now I am so happy to have good health. My daughter, who is 18 years old, has also taken it and will be happy to recommend it to all young girls." —Dame WILLIAM PARMENT, Box 414, Buckingham, Quebec.

Why suffer for years with back-ache, nervousness and other ailments common to women from early life to middle age, when Lydia E. Pinkham's Vegetable Compound will give you relief?

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 250,000 replies were received, and 98 out of every 100 reported they were benefited by its use.

"I have never known love until

Little Helps For This Week

Add to godliness brotherly kind ness, and to brotherly kindness charity. 2 Peter 1:7.

Brother man, fold to thy heart thy brother.

Where piety dwells the peace of God is there.

To worship rightly is to love each other.

Each smile a hymn, each kindly word a prayer.

—John Greenleaf Whittier

As the rays come from the sun and yet are not the sun, even so out joy and pity, though they are not God, but merely a poor, weak image and reflection of Him, yet from Him alone they come. If there is mercy in our hearts, it comes from the Fountain of Mercy. If there is the light of love in us, it is a ray from the full sun of love.

—Charles Kingsley

"The Confederation"

Name Given to New Canadian National Train Commemorates Canada's Diamond Jubilee

An important extension of Canadian National Railways' passenger train service between Eastern Canada and the Pacific Coast, is announced by H. H. Melanson, general passenger traffic manager of the System. Under a new schedule which becomes effective on June 24th, from Toronto, and June 27th from Vancouver, trains No. 3 and No. 4, now operating between Winnipeg and Toronto only, under the name of "The National," will operate between Toronto and Vancouver on a 93-hour schedule westbound and 91 hours and 10 minutes schedule eastbound. It was announced also that in honor of Canada's diamond jubilee, the trains under the new service will bear the title of "The Confederation."

These trains operate with the latest type all-steel equipment, including tourist and standard sleepers, dining cars and radio-equipped observation library cars, and have proven very popular with passengers between Toronto and Western Canada during since their inception. On the new schedule, the trains will carry a mountain observation car between Kamloops and Vancouver, and will thus provide passengers with the opportunity of seeing the beauties of the famous Fraser River en route.

An important change in the routing of "The Confederation" across the prairie provinces is also announced. Under the new schedule these trains will operate via Brandon, Manitoba, and Regina, Saskatchewan, thus giving through service to these important cities in the west.

A Use for Everything

Australia Making Millions Out of Jack Rabbit Pest

Australia once upon a time hardly wondered what it would do with the jack rabbit pest. These ferocious creatures ate up all the crops in sight. A government bounty was put on them. Then it was found that rabbit hides were good for material to build felt hats. Last year the pelts of 75,000,000 rabbits brought \$12,500,000 into Australia. There seems nothing so useless on earth but that it has real value. Some day we expect some genius will discover a use for moth holes.

Bees can't talk, but they often are back at one with a ringing report.

BABY'S OWN SOAP

Pure & Fragrant

Best for You and Baby too

? --- TIMES ONE POUND

Multiply one by the number of sheep you have. That is the exact weight you get from machine shearing. Have you sheep? Why not have you to get 1/2 lbs. more wool every season? Have you too sheep? You'll lose one lbs. of wool every time you shear with the old, slow and tedious hand-blades. Machine shears easily—get longer staple wool which brings better price, sleep injured less. Anyone can use machine.

Stewart No. 9 Shearing Machine

Hard power. Sturdy construction, ball bearing.

Built to last for years. Includes 2 combs and 4 cutters. At dealers \$29.75 or send \$2.00 to factory and pay balance on arrival. Freight prepaid. Cow and horse clipping attachments \$10.75 extra.

Satisfaction or money back.

BAKERS' OVENS White for cakes, brownies and hot of used ovens. Hubbard Oven Company, 1100 Queen West, Toronto, Ont.

A. BROKEN DOWN SYSTEM.

This is a common condition to which doctors give many names, but which few of them really understand. It is the state of the body when the vital forces are so weak that they are almost powerless, as in convalescence after a long illness. In such cases there are many symptoms, such as prostration or weariness, depression of spirits and want of energy for all the ordinary acts of life. Some persons are subject to such a condition all the time, whereas others are subject to it only at certain times.

Such persons are subject to a loss of vital strength and energy to throw off disease and feverish feelings, and as might be expected, the day may be more easily selected by a person.
